

## The Tracker : Low - Power Asset Tracking

Wherever you are, you can check where your assets are at a certain point in time. Fully autonomous sensors, that are battery-powered and require no cables, will keep you up-to-date about your assets

location and usage. The energy-efficiency of our application is guaranteed by combining different geolocation technologies like GPS, WiFi, BLE and network-based geolocation via an LPWAN.

Easy Installation

Industrial Use

User Friendly Platform

Indoor & Outdoor Localization

Battery Life Up to 5 Years

Reliable

	Ultra	Compact
Dimensions (mm)	130 x 72 x 36 mm	105 x 54 x 22 mm
Technology	BLE / GPS / Wi-Fi (Optional)	
Battery	Non-rechargeable, replaceable, lithium pack	Non-rechargeable, Non-replaceable, lithium pack
Network	Sigfox - RC/1/2/3/4/5	
Certifications	IP68 / IP69K / IK10 / CE / FCC /SIGFOX - Class 0	IP68 / IK08 / CE / FCC /SIGFOX - Class 0
Operation Temperature	-20 up to 80° C	-20 up to 55° C
Mounting Options	Screws, Rivets, Toe-Wraps, 2-side tape, Magnets
